DEUTZ®

DEUTZ maintenance kits

Well prepared for the cold season. Benefit from our attractive kit offers for your engine!!

Winter is highly demanding for both your machine and the diesel engine. DEUTZ maintenance kits offer the best protection and optimal engine performance even at low temperatures, allowing your machines to work and operate reliably and profitably during the wintertime. Your DEUTZ Service dealer will create a maintenance kit matched to your engine.

- ✓ Genuine DEUTZ spare parts
- ✓ Operating liquids of highest quality
- ✓ Carefree package – safety and protection

Maintaining the cold start aid and the retrofitting of fuel and coolant heaters offers savings in fuel usage and further protects the engine. Your DEUTZ service dealer will be pleased to explain the advantages and options available.
